Interview Questions

Question 1

Tell us about a time when you had to manage multiple urgent requests at once.
How did you prioritize your work?

Question 2

Tell us about a time when you provided support to a colleague or team during a challenging issue.
What role did you play?
How did you support them?

Question 3

Describe a time when you had to troubleshoot and resolve a technical issue involving enterprise applications or systems (e.g., software, hardware, network or databases).
How did you:

1. Diagnose the issue?
2. What tools or platforms did you use?
3. What was the outcome?

Question 4

Can you give an example of a situation when you had to assess multiple possible solutions under time pressure?
How did you decide on the best course of action?
